Qualification Overview

The Ascentis Entry Level Awards in Mathematical Skills (Entry 1) and the Entry Level Certificate in Mathematical Skills (Entry 1) are ideal qualifications for adults and young people wishing to develop their mathematical skills at Entry 1. They are intended to aid progression to further study through Mathematics Functional Skills qualifications. The Ascentis Entry Level Awards in Mathematical Skills (Entry 1) are a range of small qualifications which have been designed to 'bridge the gap' in learners' mathematical knowledge, thus focusing on developing confidence and ability.

There are several features of these qualifications that make them very appropriate for their target learners:

- There is a wide range of single-unit Awards – 7 in total
- They are relatively short qualifications of 10–20 guided learning hours – bite-sized learning
- They can be delivered either as classroom-based courses or as a blended learning programme
- They are assessed by completion of Ascentis-designed assessment – no portfolio of evidence required
- Verification and certification can be offered throughout the year, allowing maximum flexibility for centres

Aims

The aims of this suite of qualifications are to enable learners:

- 1 To gain underpinning mathematical skills
- 2 To bridge the gap in their mathematical knowledge
- 3 To prepare for the completion of the Functional Skills in Mathematics at Entry 1
- 4 To progress onto the Ascentis Entry 2 Awards in Mathematical Skills
- 5 To develop the skills required to move into the world of work or work-based learning

Target Group

These qualifications are aimed at a range of learners, including:

- Adults who wish to develop and demonstrate their skills in mathematics
- Young people aged 14–19 who wish to develop and demonstrate their skills in some aspects of mathematics

Assessment Method

Each unit is assessed through an assessment to be taken under supervised conditions. Guide times are provided for each assessment. The assessment is internally assessed and verified by the centre and then externally verified by Ascentis.

Rule of Combination

Learners must complete one unit for each Award at Entry 1. These are single-unit qualifications and certification is given for achieving a pass in the Ascentis-designed assessment.

Learners who achieve all 13 credits may wish to claim an Entry Level Certificate in Mathematical Skills (Entry 1).
