Qualification Overview

These qualifications' main purpose is to help you to achieve a skill set that will enable you to operate independently and effectively in life, learning and work.

Many young people and adults need support to overcome barriers which are preventing them from achieving what they want to in life and work. These qualifications offer a flexible and broad range of subjects which can be tailored to your needs to help you to learn new skills and knowledge.

There are several features of these qualifications that make them very appropriate for their target learners:

- Unit certification is available for each of the units
- Verification and certification can be offered throughout the year, allowing maximum flexibility for centres
- Evidence can be generated within a wide range of organisational contexts allowing the qualification to meet the specific occupational requirements of the learners

Aims

The aims of these qualifications are to enable learners:

- 1 To overcome barriers to entering work
- 2 To operate independently and effectively in life, learning and work

Target Group

These qualifications are designed for learners who would benefit from an individualised curriculum. They are designed to support those who:

- Need to develop their English, maths and interpersonal skills in order to progress in learning or employment
- Would prefer an alternative to an academic qualification
- Lack confidence in their own ability to progress in learning or work
- Would benefit from studying vocational taster units to help make career choices

Assessment Method

All units are internally assessed through the learner building up a portfolio of evidence that covers the relevant assessment criteria. They are internally assessed and verified by the centre and then externally verified by Ascentis.
