

Ascentis Level 1 Award and Certificate

in

Introduction to the Construction Environment

Overview Specification

Ofqual Number:

Award 603/5955/9 Certificate 603/5956/0

Ofqual Start Date: 01/08/2020
Ofqual Review Date: 31/07/2027
Ofqual Certification Review Date: 31/07/2028

Qualification Overview

The Ascentis Level 1 Award and Certificate in Introduction to the Construction Environment introduce learners to the construction industry to enable them to progress with further training and employment within their chosen areas. The Certificate also allows learners to develop their personal and employability skills to prepare them for employment in this sector.

There are several features of these qualifications that make them very appropriate for their target learners:

- Unit certification is available for each of the units
- Verification and certification can be offered throughout the year, allowing maximum flexibility for centres
- They can be delivered either as a classroom-based courses or as a blended learning programme
- Evidence can be generated within a wide range of organisational contexts, allowing the qualifications to meet the specific occupational requirements of the learners

Aims

The aims of these qualifications are to enable learners to develop their understanding at an introductory level:

- To prepare them for further training within their chosen occupational area
- To promote the importance of work-related skills within the construction industries

Target Group

These qualifications are aimed at young people aged 14+ and adults who have an interest in following a career within the construction industry or would like to be introduced to new areas within the construction industry.

Regulation Codes

Qualification Numbers (Ofqual):

Ascentis Level 1 Award in Introduction to the Construction Environment: 603/5955/9
Ascentis Level 1 Certificate in Introduction to the Construction Environment: 603/5956/0

Assessment Method

All units are internally assessed through the learner building up a portfolio of evidence that covers the relevant assessment criteria, internally assessed and verified by the centre and then externally verified by Ascentis.

On completion of the learners' evidence for either the individual units or the Level 1 Award or Certificate, the assessor is required to complete the Summary Record of Achievement for each learner. The Summary Record of Achievement asks assessors and the internal verifier to confirm that the rules of combination have been followed. This is particularly important in cases where a learner has taken units at different levels. The Summary Record of Achievement form is provided in Appendix 1.

Centres are required to retain all evidence from all learners for external verification and for four weeks afterwards in case an appeal is made.

Rules of Combination

Rationale for the Rules of Combination

To achieve the Award in Introduction to the Construction Environment the learner must obtain a minimum of 7 credits. A minimum of 51% of credits must be taken at the level of the Award.

Ascentis Level 1 Award in Introduction to the Construction Environment

Learners must achieve 7 credits in total to achieve the Award. Learners must achieve the Mandatory unit and the remaining credits can be taken from Group B.

and the remaining credits can be taken from Group B.					
Title	Level	Credit Value	GLH	Unit ref
