Qualification Overview

The Ascentis qualifications in Speech and Language Support provide the practical skills and underpinning knowledge to enable those working with children and young people to develop the speech, language and communication (SLC) skills of all in their care, but particularly those with difficulties in these areas.

These specialist units are available so that learners can develop their skills with a specific age group, e.g. 0–3s, 3–5s, 5–11s and 11–16s, or those with specific needs, e.g. severe and complex communication needs or autism spectrum disorder.

Aims

The Ascentis Level 2 and 3 Awards in Speech and Language Support for 11–16s aim to:

- Build practitioners' confidence and skills to support the communication and language development of ALL children aged 11–16 years, but especially those with speech and language difficulties
- Provide educational settings with a highly skilled workforce to help narrow the gap and improve the life chances of young children

These qualifications are also suitable for those working with children learning English as an additional language and other special educational needs.

Target Group

These qualifications are aimed at individuals aged 16–18 and 19+ working in secondary settings.

The Level 2 qualification is suited to learners who have previously achieved other qualifications at Level 2, e.g. GCSEs, although this is not a prerequisite.

The Level 3 qualification would be best suited to learners who have previously achieved other qualifications at Level 3 and above such as A Levels, although this is not a prerequisite.

Learners need to be able to observe and communicate with children and young people to provide practical evidence for their portfolio.
