Qualification Overview

The Ascentis Level 2 Certificate, Extended Certificate and Diploma in Health and Social Care Professions are designed to help learners make an informed choice about a career in health and social care. Achievement of these qualifications could act as progression towards programmes of study at Level 2 or Level 3 such as an Apprenticeship programme or the Access to HE Diploma.

There are several features of these qualifications that make them very appropriate for their target learners:

- Assessment is through the building-up of a portfolio of evidence, allowing flexibility in terms of the learner putting together evidence most appropriate to their learning situation
- There is a flexible optional unit structure that allows learners and tutors to choose learning that is relevant to their specific needs
- Units are available at both Level 1 and Level 2
- Verification and certification can be offered throughout the year, allowing maximum flexibility for centres

Aims

The aims of the qualifications are to enable learners

- 1 To promote the skills required for learner self-confidence and further study
- 2 To encourage learners to consider a career in health and social care
- 3 To reward the achievement of learners for the skills that they have developed

Target Group

These qualifications are aimed at learners wishing to develop skills in health and social care and go onto further study or work in this area.

Regulation Codes

Ofqual Regulation Numbers:

- Ascentis Level 2 Certificate in Health and Social Care Professions: 601/6234/X
- Ascentis Level 2 Extended Certificate in Health and Social Care Professions: 601/6239/9
- Ascentis Level 2 Diploma in Health and Social Care Professions: 601/6236/3

Assessment Method

All units are internally assessed through the learner building up a portfolio of evidence that covers the relevant assessment criteria. They are internally assessed and verified by the centre and then externally verified by Ascentis.

Rule of Combination

The qualifications consist of a collection of optional units covering a wide range of organisational contexts. This will allow learners to select those units which will meet their specific occupational requirements.
