ABOUT ASCENTIS

Ascentis was originally established in 1975 as OCNW, a co-operative scheme between Universities and Colleges of Further Education. Ascentis was the first 'Open College' in the UK and served the needs of its members for over 34 years. Throughout this period, OCNW grew yet maintained its independence in order that it could continue to respond to the requirements of its customers and provide a consistently high standard of service to all centres across the country and in recent years to its increasing cohorts of overseas learners.

In 2009 OCNW became Ascentis - a company limited by guarantee and a registered educational charity.

Ascentis is distinctive and unusual in that it is both:

- **an Awarding Organisation** regulated by the Office of Qualifications and Examinations Regulation (Ofqual, England), Council for the Curriculum, Examinations and Assessment (CCEA, Northern Ireland) and Qualifications Wales

and

- **an Access Validating Agency (AVA)** for 'Access to HE Programmes' licensed by the Quality Assurance Agency for Higher Education (QAA).

Ascentis is therefore able to offer a comprehensive ladder of opportunities to centres and their students, including Foundation Learning, vocational programmes and progressing to QAA recognised Access to HE qualifications. The flexible and adult-friendly ethos of Ascentis has resulted in centres throughout the UK choosing to run its qualifications.

ASCENTIS LEVEL 1 CERTIFICATE IN EMPLOYABILITY

Introduction

This qualification is designed to build the confidence and self-esteem of learners. It also seeks to encourage the development of values, personal attributes and interpersonal skills that contribute to success in the workplace. As this qualification focuses on generic workplace skills, it also meets the needs of employers for staff by developing learners' understanding of relationships in the workplace and employer expectations.

This qualification incorporates mandatory units in key areas such as presentation, communication and team working and offers further transferable skills in its optional units which include such topics as money management, health and safety, customer care and problem solving.

There are several features of this qualification that make it very appropriate for its target learners:

- Unit certification is available for each of the units.
- Verification and certification can be offered throughout the year, allowing maximum flexibility for centres.
- Can be delivered either as a classroom-based course or as a blended learning programme.
- Evidence can be generated within a wide range of organisational contexts allowing the qualification to meet the specific occupational requirements of the learners.

Aims

The aims of this qualification are to:

- 1 give learners confidence.
- 2 enable learners to overcome barriers to entering the workplace.
- 3 provide essential skills for further learning or for the workplace.
- 4 improve work prospects and cultivate positive attitudes to work.

Target Group

- Learners who may have been out of work for a long period of time
- Learners who need to update their skills to re-enter the workplace
- Learners needing to demonstrate readiness for the workplace
- Learners who may be entering the workplace for the first time

Guided Learning Hours (GLH)

The recommended guided learning hours for this qualification is 106.

Total Qualification Time (TQT)

The total qualification time for this qualification is 130.

Time Limit for the Process of Credit Accumulation and Exemptions

Credit accumulation is usually within the life span of the qualification. Exemptions may have been achieved previous to the qualification start date; each case will be considered separately.

Recommended Prior Knowledge, Attainment and/or Experience

There is no prior knowledge required for this qualification.

Age Range of Qualification

This qualification is suitable for young people aged 14-19 and adult learners.

Opportunities for Progression

This qualification is designed to break down barriers to engagement with work. Whilst it is not designed to lead to a specific job role, you will develop generic, transferrable work skills valued by employers. This qualification provides a sustained learning programme which will give you core generic skills for a return to employment, as well as selecting a range of optional units to suit your individual needs and circumstances.

Resources to support the Delivery of the Qualification

Ascentis has devised a suite of workbooks and PowerPoints to support the units within this qualification. The workbooks should support the delivery of the qualification but should not represent the sole learning material within the respective unit. They have been carefully designed and mapped to most assessment criteria however, due to the nature of some assessment criteria, additional evidence may be required and tutors should always ensure this. The tasks can be contextualised for your learners.

Many Ascentis units include suggested content to support wider learning opportunities across three priority areas:

- Digital
- Well-being
- Sustainability.

They are not compulsory and do not form part of the assessment. They are suggestions for tutors who may wish to link the unit content into these areas to further support learner progression in education, training and work.

Centre Recognition

This qualification can only be offered by centres recognised by Ascentis and approved to run this qualification. Details of the centre recognition and qualification approval process are available from the Ascentis office (tel. 01524 845046) or from the website at www.ascentis.co.uk.

Qualification Approval

If your centre is already a recognised centre, you will need to complete and submit a qualification approval form to deliver this qualification. Details of the qualification approval process are available from the Ascentis office (tel. 01524 845046) or from the website at www.ascentis.co.uk.

Registration

All learners must normally be registered with Ascentis within seven weeks of commencement of a course via the Ascentis electronic registration portal. Late registration may result in a fee, refer to the latest version of the product catalogue.

Status in England, Wales and Northern Ireland

This qualification is available in England and Northern Ireland. They are only offered in English. If you wish to deliver them in any other nation, please contact development@ascentis.co.uk.

In Northern Ireland it is the CCEA General Conditions of Recognition and Qualifications Wales is the Standard Conditions of Recognition.

Reasonable Adjustments and Special Considerations

In the development of this qualification Ascentis has made every attempt to ensure that there are no unnecessary barriers to achievement. For learners with particular requirements reasonable adjustments may be made in order that they can have fair assessment and demonstrate attainment. There are also arrangements for special consideration for any learner suffering illness, injury or indisposition. Full details of reasonable adjustments and special considerations are available from the login area of the Ascentis website www.ascentis.co.uk or through contacting the Ascentis office.

Enquiries and Appeals Procedure

Ascentis has an appeals procedure in accordance with the regulatory arrangements in the Ofqual *General Conditions of Recognition*. Full details of this procedure, including how to make an application, are available from the login area of the Ascentis website www.ascentis.co.uk or through contacting the Ascentis office.

Useful Links

Web links and other resources featured in this specification are suggestions only to support the delivery of this qualification and should be implemented at the centre's discretion. The hyperlinks provided were live at the time this specification was last reviewed. Please kindly notify Ascentis if you find a link that is no longer active.

Please note: Ascentis is not responsible for the content of third-party websites and, whilst we check external links regularly, the owners of these sites may remove or amend these documents or web pages at any time.

ASSESSMENT AND VERIFICATION ARRANGEMENTS

Assessment

All units are internally assessed through the learner building up a portfolio of evidence that covers the relevant assessment criteria, internally assessed and verified by the centre and then externally verified by Ascentis.

On completion of the learners' evidence for either the individual units or the Certificate, the assessor is required to complete the Summary Record of Achievement for each learner. The Summary Record of Achievement asks assessors and the internal verifier to confirm that the rules of combination have been followed. This is particularly important in cases where a learner has taken units at different levels. The Summary Record of Achievement form is provided in [Appendix 1](#).

Centres are required to retain all evidence from all learners for external verification and for 4 weeks afterwards should any appeal be made.

Internal Assessment

Evidence for each unit is through building up a portfolio of evidence to demonstrate that all the assessment criteria within the unit have been achieved. The evidence will be assessed by the assessor at the centre, who may or may not be the tutor teaching the course.

Portfolios of evidence should include a variety of evidence to demonstrate that the assessment criteria for each unit have been met. Examples of evidence that could be included are:

- Observation record
- Questions and discussions
- Photographs
- Video
- Worksheets
- Audio recordings
- Self-assessments
- Workbook activities
- Final multiple-choice tests.

If the learner fails to meet the assessment criteria on the first attempt at an activity, they may redraft the work following feedback given by the tutor. However, tutors must not correct the work of the learner, and all feedback given by the tutor must be included within the learner's evidence.

Learners' portfolio work should include a tracking sheet to show where the evidence for each assessment criterion is to be found. Some activities could produce evidence for more than one unit, which is acceptable as long as there is clear reference to this on the tracking sheet. Examples of tracking sheets for the mandatory units are found in [Appendix 2](#) and optional unit tracking sheets can be found in the login area of the Ascentis website.

Verification

Internal Verification

Internal verification is the process of ensuring that everyone who assesses a particular unit in a centre is assessing to the same standards i.e. consistently and reliably. Internal verification activities will include: ensuring any stimulus or materials used for the purposes of assessment are fit for purpose; sampling assessments; standardisation of assessment decisions; standardisation of internal verification decisions. Internal Verifiers are also responsible for supporting assessors by providing constructive advice and guidance in relation to the qualification delivered.

Ascentis offer free refresher training in support of this role through an Ascentis Internal Quality Assurance course. The purpose of the course is to provide staff in centres with knowledge and understanding of Ascentis IQA processes and procedures, which will enable them to carry out their role more effectively. To book your place on a course or request further information, please contact the Ascentis Quality Assurance Team (qualityassurance@ascentis.co.uk).

Further information is available from the login section of the Ascentis website www.ascentis.co.uk.

External Verification

Recognised centres will be verified in accordance with a verification model that is considered most appropriate for the provision. More frequent verifications can be requested from the Ascentis Quality Assurance team, for which there is usually an additional charge. External verification will usually focus on the following areas:

- Ensuring the centre is using appropriate assessment methods and making appropriate assessment decisions according to Ascentis' requirements.
- Ensuring the centre has appropriate internal quality assurance arrangements as outlined within the relevant qualification specification.
- Checking that the centre is using appropriate administrative arrangements to support the function of delivery and assessment.

External Quality Assurers will usually do this through discussion with the assessment and Internal Quality Assurance staff; verifying a sample of learners' evidence; talking to learners, reviewing relevant centre documentation and systems.

Knowledge, Understanding and Skills required of Assessors and Internal Verifiers

Centres must ensure that those delivering and assessing Ascentis qualifications are occupationally knowledgeable and competent within the relevant subject area.

Centres are responsible for ensuring that all staff involved in the delivery of the qualification are appropriately qualified. Ascentis will not be held responsible for any issues that relate to centre staffing which could impact on the successful delivery, assessment and internal quality assurance of our qualifications.

Those delivering the qualification should preferably hold or be working towards a recognised teaching qualification. Assessors must be able to make appropriate assessment decisions. Internal Quality Assurers need to have knowledge and experience of the internal quality assurance processes.

Centres are required to ensure that appropriate training and support is in place for staff involved in the delivery, assessment and internal verification of Ascentis qualifications.

Ascentis offers free support for centres. Further information on the support that is available can be found on the Ascentis website.

Credit Value of Unit: 2

GLH of Unit: 20

Level of Unit: 1

Introduction

The purpose of this unit is to provide individuals with the necessary skills and actions to deal with problems in their daily lives. This is a practical unit which involves planning activities to resolve problems and identify relevant resources and support.

Learning Outcomes	Assessment Criteria
The learner will:	The learner can:
1. Know how to recognise a straightforward problem and identify ways to tackle it.	1.1. Describe a straightforward problem and its effects.
	1.2. Suggest ways in which they might tackle the problem.
	1.3. Select a way to tackle the problem and agree it with an appropriate person.
2. Be able to plan and carry out activities to tackle a problem.	2.1. Plan the activities needed to tackle the problem.
	2.2. Identify resources to help tackle the problem.
	2.3. Carry out planned activities.
3. Be able to carry out a review of their methods and the skills they used in tackling the problem.	3.1. Review the approach used to tackle the problem.
	3.2. Describe what went well and what did not go so well.
	3.3. Identify whether the problem has been solved.

Indicative Content

Please be aware that the indicative content supplied below is a suggested guide only.

Problems in daily life

- **Daily life problems and their effects** – arguments/conflict with friends, family or work colleagues, losing personal possessions, health concerns etc.
- **Dealing with daily life problems** – defining the problem, identifying the cause, developing a range of solutions, assessing and selecting appropriate solutions, implementing activities to deal with problems.
- **Review of methods** – identifying what went well, what could have been done differently, lessons learned.

Suggested opportunities to develop wider awareness, learning and skills	
Digital	Well-being
Learners could: • Use online tutorials/forums to research different ways to manage a problem. • Share ideas on how to solve the problem using presentation tools such as PowerPoint. • Use digital tools to create personal action plans.	Learners could: • Identify the positive feelings that they might relate to solving a problem. • Think of ways to manage negative feelings that impact their well-being, such as talking to someone about any worries, relaxation and breathing exercises to manage feelings of anxiety. • Benefit from knowing personal skills they might develop to support problems experienced e.g. building confidence in talking to people, writing worries/concerns down before seeking assistance, taking notice and listening to advice. • Build connections with people around them to help solve the problem.

Unit Reference Number: L/503/5210

Credit Value of Unit: 2

GLH of Unit: 20

Level of Unit: 1

Introduction

This unit focusses on the construction of a Personal Development Plan to enable individuals to set development targets, determine development activities and review own progress and achievements. Learners will explore a range of development activities and access to support from others to aid their achievement of planned targets.

Learning Outcomes	Assessment Criteria
The learner will:	The learner can:
1. Be able to plan to meet targets.	1.1. Describe why it is important to set targets.
	1.2. Set targets that clearly show what they want to achieve.
	1.3. Identify clear action points and deadlines.
	1.4. Identify and access sources of support.
	1.5. Make arrangements for reviewing progress.
2. Be able to follow a plan to meet targets and improve performance.	2.1. Work through action points to complete work on time.
	2.2. Describe different ways of learning and how they learn best.
	2.3. Use ways of learning suggested by others and make changes when needed to improve performance.
	2.4. Use support given by others to help meet own targets.
3. Be able to review own progress and achievements.	3.1. Identify what they have learned and state how they have learned.
	3.2. State what went well and what went less well.
	3.3. Identify targets they have met and describe own achievements.
	3.4. Accept and use feedback to improve own performance.

Indicative Content

Please be aware that the indicative content supplied below is a suggested guide only.

Planning and Reviewing Learning

- **Setting learning targets** – importance of targets, developing action points to meet planned achievements, set deadlines and identify sources of support, plan action points review
- **Meeting targets and improving performance** – follow an action plan to meet development needs, ways of learning (training, shadowing, work experience, etc.), support from others (work colleagues, friends, peers, teachers/tutors etc.)
- **Review Progress and achievement** – lesson learned, what went well, what could have been done better, use feedback to improve own performance.

Suggested opportunities to develop wider awareness, learning and skills

Digital	Well-being
Learners could: • Word process lists detailing strengths and things to work on, creating a personal action plan. • Identify the specific digital skills they wish to develop further e.g. using Excel, using video conferencing tools (Zoom, Teams).	Learners could: • Identify targets for development that relate to their own well-being, linking positive changes to increased performance. • Understand that 'Keep Learning' is part of the Five Ways to Well-being and skills gained can increase their confidence and sense of purpose.

Unit Title: Community Project

Unit Reference Number: T/501/6893

Credit Value of Unit: 3

GLH of Unit: 22

Level of Unit: 1

Introduction

This unit is designed for learners who are engaging in a community project as part of their skills development and enables individuals to agree, plan, risk assess, implement and monitor such a project. The skills developed through this unit are transferable into any workplace environment.

Learning Outcomes	Assessment Criteria
The learner will:	The learner can:
1. Be able to agree a suitable community project.	1.1. List options for a community project.
	1.2. Choose a project and give reasons for choice.
	1.3. Agree a suitable community project.
2. Be able to plan a suitable community project.	2.1. Produce a list of tasks that need to be done.
	2.2. List who will do what.
	2.3. Decide a suitable time frame.
	2.4. Identify any equipment and materials needed.
	2.5. Identify any help needed.
	2.6. Agree a suitable plan (with team members if working in a team).
3. Be able to contribute to a risk assessment for the project.	3.1. List possible risks and hazards.
	3.2. Plan how to reduce any risks or hazards.
	3.3. Agree a risk assessment with tutor or supervisor.
4. Be able to follow the project plan.	4.1. Take responsibility for completing tasks identified in the plan.
	4.2. Review progress (with team members if working in a team).
	4.3. Revise plan as necessary.
	4.4. Work safely.
5. Be able to review the project.	5.1. Describe what went well.
	5.2. Describe what could be improved.
	5.3. Describe what they have learned about themselves and the local community.

Indicative Content

Please be aware that the indicative content supplied below is a suggested guide only.

Community Projects

- **Select a community project** – community project options, agreeing a community project
- **Develop a community project plan** – identify tasks and those responsible, allocate timeframes and deadlines, identify resources and support needed, develop and agree a plan with relevant individuals
- **Risk assessment** – identify risks and hazards (health and safety, financial etc), plan methods to reduce risks, agree a risk assessment plan with relevant individuals
- **Implement a community project** – roles and responsibilities in delivering community project, progress review and revision of plan, work safely to protect self and others
- **Review community project** - what went well, what could have been done better, lesson learned about self and the local community

Suggested opportunities to develop wider awareness, learning and skills

Digital	Well-being	Sustainability
Learners could: • Use online tools to research and link with their local community and community action groups such as: Facebook, local council webpages. • Create spreadsheets to present actions plans and risk assessments.	Learners could: • Explore concepts from the Five Ways to Well-being such as: Connecting: spending time with people on a shared project promotes well-being. Being Active: making choices that help them to stay physically activity as part of the project. Give: giving time and energy to a community project helps them to feel good and positive about themselves.	Learners could: • Think about working on a project that is linked to supporting or protecting the local environment. Learners might research local nature and environmental charities.

UNIT SPECIFICATIONS

Unit Title: Health and Safety in a Practical Environment

Unit Reference Number: Y/600/3239

Credit Value of Unit: 1

GLH of Unit: 9

Level of Unit: 1

Introduction

This unit provides an introductory knowledge of health and safety procedures, requirements and equipment in the workplace. Learners will be able to identify potential risks in the working environment and understand how safety equipment can be used to minimise the risk and protect individuals.

Learning Outcomes	Assessment Criteria
The learner will:	The learner can:
1. Be aware of relevant health and safety requirements, procedures and equipment.	1.1. State the purpose of relevant, current Health and Safety requirements, for example, Health and Safety at Work Act or the Control of Substances Hazardous to Health Regulations.
	1.2. State the correct procedures for reporting accidents and potential hazards.
	1.3. State the correct response to two emergency situations.
	1.4. State the location of the use of emergency equipment, for example, fire/emergency alarm and first aid box.
2. Recognise and manage risk by following safe working practices.	2.1. Identify the potential risks of a given situation.
	2.2. State the purpose and use of safety equipment and/or clothing to minimise risk in particular tasks.
	2.3. Follow relevant health and safety procedures, for example, by selecting and using appropriate personal protective equipment or using correct manual handling techniques.

Indicative Content

Please be aware that the indicative content supplied below is a suggested guide only.

Health and Safety in a Practical Environment

- **Health and Safety legislation and regulations** – Health and Safety at Work Act, Control of Substances Hazardous to Health, Workplace Regulations, Personal Protective Equipment (PPE), Manual Handling, Provision and Use of Work Equipment Regulations, Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR), First Aid regulations, Display Screen regulations, working at height regulations, Fire Safety
- **Safe working practices** – recognising and managing risk, potential risks (slips, trips and falls, hazardous substances, physical injury etc.), correct use of safety equipment and clothing (fire safety equipment, PPE etc.), manual handling techniques

Suggested opportunities to develop wider awareness, learning and skills	
Well-being	Sustainability
Learners could: - Identify the relationship between health and safety in the workplace and overall well-being in the workplace. A working environment that follows health and safety standards and has designated people to contact for issues or concerns can help people feel productive/supported. - Think about health and safety guidance which impacts their own personal health and well-being e.g., tidy workspace, clean facilities etc.	Learners could: Consider the impacts on the environment if harmful substances are not disposed of correctly.

UNIT SPECIFICATIONS

Unit Title: Well-being for the Workplace

Unit Reference Number: M/650/7277

Credit Value of Unit: 2

GLH of Unit: 20

Level of Unit: 1

This optional unit aims to encourage an understanding of the importance of well-being in the workplace. Learners will develop an awareness of what well-being is on a personal level and think about how organisations are building well-being methods into their procedures. Learners will identify well-being activities that will support them in their overall health in a workplace or educational setting and develop transferable knowledge and skills to support them in different work or training environments.

Learning Outcomes	Assessment Criteria
The learner will:	The learner can:
1 Know the meaning of well-being.	1.1 State what is meant by the term well-being.
	1.2. Identify the aspects of life that influence well-being.
	1.3. Outline the five ways to achieve well-being.
2 Define the importance of well-being in the workplace.	2.1. Identify reasons why well-being is important to employers.
	2.2. Identify reasons why well-being is important to employees.
3 Understand well-being activities and facilities.	3.1. Identify a workplace or educational setting that offers well-being facilities or activities.
	3.2. Give examples of well-being activities and facilities in the workplace or educational setting of choice.
4 Set actions for a personal well-being action plan.	4.1. Identify the areas of well-being that would be most beneficial to them in their workplace or educational setting.
	4.2. Give examples of positive ways to improve well-being in a personal well-being action plan.

Indicative Content

Please be aware that the indicative content supplied below is a suggested guide only.

Please note that some subjects within this qualification are sensitive and may be difficult for some learners.

LO 1 Know the meaning of well-being.

1.1 State what is meant by the term well-being.

1.2. Identify the aspects of life that influence well-being.

1.3. Outline the five ways to achieve well-being.

Simple and clear definitions should be used to illustrate the overall concept of well-being.

Well-being can be described in many ways, but the following definition may support tutors in discussions:

Well-being: the state of feeling healthy and happy.

Definition from: Cambridge Dictionary, [dictionary.cambridge.org](https://dictionary.cambridge.org/dictionary/english/well-being?q=wellbeing), viewed March 2023,
<https://dictionary.cambridge.org/dictionary/english/well-being?q=wellbeing>

It is important to cover all the aspects of life that have a bearing on a person's well-being and the key areas are:

- Physical health
- Mental health
- Emotional health
- Social circumstances
- Spiritual views
- Occupational skills

These areas are closely linked and there is overlap in many instances.

The **Five Ways to Well-being** should be introduced in this LO along with their origins **in brief**.

Connect	Connecting with others through social interactions and friendships
Be Active	Increasing overall physical activity, through simple things like walking to college/work
Keep Learning	Expanding interests in new things, learning new skills and gaining new interests
Give	Giving time to others, such as volunteering or supporting a friend
Take Notice	Paying attention to the simple things around us such as being aware of the birds and birdsong

Both websites below have some examples that tutors might find useful.

LO 2 Define the importance of well-being in the workplace.

Indicative Content

LO 2.1 Identify reasons why well-being is important to employers.

Since the start of Covid-19 employee health and well-being has been pushed to the top of the agenda for many companies who have shown increased interest in the well-being of their staff.

131 million days were lost due to sickness absences in the UK in 2011. [Source: Office of National Statistics Sickness Absence in the Labour Market, April 2012] This poses a significant cost and challenge to employers.

The key factors for **employers** in terms of acknowledging the importance of workplace well-being include:

- A reduction in sickness and absence
- Improved atmosphere in the workplace
- Increased productivity – and perhaps financial performance of the organisation
- Less staff turnover
- The organisation can be seen as a great place to work.

LO 2.2 Identify reasons why well-being is important to employees.

The key factors for employees in terms of acknowledging the importance of workplace well-being include;

- Improved focus and motivation at work
- Reduction in levels of stress
- Higher levels of job satisfaction
- Physically healthier employees and improved general well-being
- More successful and positive relationships with colleagues/managers

LO 3 Understand well-being activities and facilities.

3.1. Identify a workplace or educational setting that offers well-being facilities or activities.

3.2. Give examples of well-being activities and facilities in the workplace or educational setting of your choice.

The **5 Ways to Well-being** should be covered in more detail, and there are opportunities to identify specific links to the 5 Ways to Well-being and what that involves in the workplace. Examples given below might help with this.

Five Ways	Meaning	Examples in the Workplace
Connect	Connecting with others through social interactions and friendships	Team building events Buddying/ mentoring colleagues
Be Active	Increasing overall physical activity, through simple things like walking to college/work	Assigned areas to encourage indoor/outdoor activity Showering facilities (commuting)
Keep Learning	Expanding interests in new things, learning new skills and gaining new interests	Courses and training opportunities Shadowing in other teams
Give	Giving time to others, such as volunteering or supporting a friend	Mentoring a new colleague Supports a charity and encourages staff participation in activities
Take Notice	Paying attention to the simple things around us such as being aware of the birds and birdsong	Encourages teams to take time to reflect Quiet zones and spaces for staff

Learners might benefit from discussing examples of corporate/workplace vocabulary such as: Human Resources (HR), corporate benefits, Employee Assistance Programme, appraisal, retention.

Indicative Content

Learners who are in education or employment can explore any facilities or activities that their own organisations offer in terms of addressing the well-being of the workforce/student body.

Learners not in work or education or interested to learn about/compare other organisations can be assisted to carry out a basic research based on an organisation/s of their choice. They could do this online, or by talking to people who work in places that have activities or facilities that support well-being. Example employers include: NHS Trusts, Universities, Tesco, Facebook.

Learners should identify the well-being facilities and activities and outline how they would help make employees feel positive and supported in their workplace/educational setting.

Sometimes well-being facilities are easy to access, such as a quiet and clean space to eat lunch, specific outdoor spaces on site etc. Some facilities or services that learners identify (such as accessing talking therapy, accessing education or training) may require an appointment or support from a member of staff.

LO 4 Set actions for a personal well-being action plan.

4.1. Identify the areas of well-being that you think would be most beneficial to you in your workplace or educational setting.

4.2. Give examples of positive ways to improve well-being in a personal well-being action plan.

Learners can refer to their own work or educational setting or use the examples from their research in LO3.

Group discussions could take place to compare the different findings that learners discovered about well-being activities in the workplace.

In planning ways to improve well-being, learners might identify activities that are provided and supported by an employer, such as training opportunities, showers facilities. And the things they can do themselves such as keeping their workspace tidy, going for a walk on a lunch break.

Suggested opportunities to develop wider awareness, learning and skills

Digital	Well-being	Sustainability
Learners could: - Develop confidence in using internet skills to research organisations. - Develop digital skills by presenting their work using tools such as Word, PowerPoint, online presentation and note taking tools.	Learners could: Think about when and how they might encourage friends or colleagues to explore the Five Ways to Well-being.	Learners could: - Consider the links between positive actions, such as recycling and advocating for recycling in the workplace, and how it links to the positive feelings of well-being at work. - Plan ways that they could travel to work that are more sustainable (walk, public transport, car share).
